

Teaching with Webex

Published 5/27/2021 by [Ashley Ribbel](#)

information from ITS

ITS has information on installing Webex, scheduling a meeting, joining a meeting, ending a meeting, and many helpful how-to tutorials.

information in the Educational Technology Tool Finder

The Educational Technology Tool Finder guides you through popular tools used by Seneca faculty, instructors, and students for increasing engagement and collaboration in their teaching and learning. The Webex entry contains a brief description, tips for using Webex, examples of Webex in use, and additional supports.

[Using Webex for Online Classes \(June 2021\)](#) webinar recording

Using Webex for Connectivity and Productivity

Webex is a long-serving web conferencing tool available for use at Seneca, and has a wide range of features that facilitate online collaboration and teaching. This webinar will demonstrate these features (such as polling, breakout rooms, recording, and more), and show participants some of the ways in which they can be used to optimize online experiences.

The *Using Webex for Online Classes* webinar on June 4, 2021 facilitated by Alex Stewart from the Teaching & Learning Centre.

Webex Supports:

This resource, from Seneca IT Services, provides another short video overview of Webex installation and use, along with some configuration parameters.

[Adding the Webex LTI to Learn@Seneca](#) video from the Teaching and Learning Centre
This resource specifically focuses, using a video walkthrough, on how to add Webex functionality to your Learn@Seneca course page.

Webex Knowledge Base

Webex's own help centre for the application, this resource offers hundreds of articles and walkthroughs on specific topics relating to webex, as well as a robust search interface to allow those items to be located.
