

Engineering Technology and Beyond - Careers That Make Sense

Version 3

Published 3/17/2022 by [Lena Tang](#) Last updated 3/21/2022 1:19 PM by [Lena Tang](#)

As a part of National Engineering Month celebration (NEM 2022), SEMET organized valuable panel discussion on how to leverage knowledge & resources of school, how to learn extra employable skills ,Importance of professional membership, and many important aspects for getting quicker job.

We are extremely thankful to [Malav Bhatt](#) and [Deval Patel](#) for sharing their journey from student to professional. They beautifully cover what need to do, while they are in school and after graduation to get employment. Both are SEMET successful electronics graduate. Super appreciative for their time and value-added advice to our students.
