Faculty Center

Faculty Center is where professors can find their class schedules, class roster, and grade roster. Faculty Center can be found under the Employee i3 (Peoplesoft) - Academic Home:

My Schedule

My schedule will provide you access to when and where your class is scheduled. This includes the delivery mode of the class as well.

Class Roster

You will be able to access your class roster from Faculty Centre. These are students who are officially registered in your course. If you encounter a discrepancy between the students who appear in your course's gradebook and what is shown in your class roster, please contact bbsupport@senecapolytechnic.ca.

Grade Roster

At the end of the semester, professors will enter the official grades for students in their "Grade Roster" using [Seneca's letter grades](#). Details on how to enter final grades can be found under our [Office of the Registrar's intranet page](#).
