The **Teaching & Learning Centre** supports faculty to enhance the academic experience through exemplary teaching practices and engaging learning activities. T&L offers workshops, courses, online modules, links to resources, and one-on-one consultation about all aspects of teaching including course and assessment design, lesson planning, active learning strategies, student engagement, and the integration of technology tools into teaching.

T&L maintains a list of approved tools for use in your courses. This tool finder will guide you through popular tools used by Seneca faculty and students for increasing engagement and collaboration in their teaching and learning and strengthening digital literacy.

If you have questions about a specific online tool or need assistance with an aspect of your course design, you can reach them by email at teaching@senecapolytechnic.ca.

The T&L team offers workshops throughout the semester that are designed to assist faculty to prepare their courses for online delivery and developing their expertise with the tools that will make their delivery engaging and effective. Please visit the [Teaching and Learning](#) website to register for upcoming courses, workshops, and events.

The **Teaching & Learning Centre** offers New Faculty Orientation sessions every term. These sessions cover services and support that impact the teaching practice at Seneca. New full-time and part-time faculty are encouraged to participate. Full-time faculty are required to participate in the New Faculty Orientation. This event provides an overview of the services and supports that impact teaching practices at Seneca. This event is also open to part-time faculty; you can register [here](#).
