

Computing Commons

Version 3

Published 10/14/2022 by [Anonymous](#) Last updated 6/11/2025 1:35 PM by [Fabio Pricino Costa](#)

The Computing Commons is an open space on campus available to students and faculty alike used for computer units, print jobs, and more. We recommend that if you cannot get your print jobs within time of upcoming exams, tests, or assignments, from the Print Shop, to consider the Computing Commons. ITS is also located at the back of Computing Commons to support you with IT needs and requests. Please ensure to have an appointment with them before visiting the office.
