Mentorship is a mutually beneficial process for sharing and learning from colleagues. The FOA has a mentorship community of practice for new faculty and staff. Through this reciprocal mentorship program, you will be able to learn about the college, meet colleagues, network, share experiences and practices, and problem solve. If you are a new member to the Faculty of Arts (within the last year or so), contact your Chair or Manager to sign up. You can also use this form to suggest topics.

If you are interested in becoming a mentor, please contact Maxine Britto.
