

Meet the 2023 Strides for Students Challengers

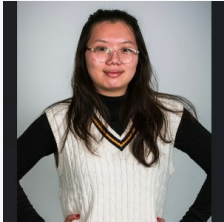

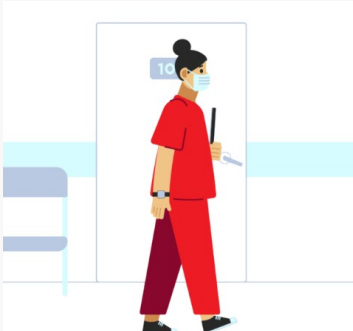

Published 6/13/2023 by [Caterina Ventrella](#)

Did you know that nurses walk an average of eight kilometres in a 12-hour shift?

These dedicated Seneca community members have accepted the challenge to match our nurses steps in one day between June 16-18. Along the way, they are fundraising for Seneca nursing Students, and 100 per cent of donations go to the Nanji Foundation Bursary in Nursing.

These Challengers need your support to reach their goal of \$5,000 raised! Once the goal is met, the Nanji Foundation will generously contribute an additional \$5,000, furthering the impact of your support!

Visit each participants donation page and support them by clicking their picture below!
