Welcome to the Faculty of Arts (FOA) Intranet space! This space has been designed to bring together and showcase all the wonderful work we do in FOA. Our hope is that all employees across FOA use this space to learn about the incredible work that goes on within the various schools and departments throughout FOA. Our aim is that in addition to this space providing a one-stop-shop for all FOA central resources, it also serves as a gateway to other important areas across Seneca Polytechnic. Further, the FOA Intranet space will help keep you up to date with all events, happenings, ways to connect and opportunities for professional growth within FOA and across Seneca. The FOA Intranet space is an initiative designed to help foster a sense of community and belonging within our FOA family. We hope the space proves to be valuable, and that you visit often.

Riaz Saloojee
