Overview

Setting well-defined goals each year allows you to identify opportunities for personal and professional growth and articulate your commitment to continuous development in your teaching practice. Goals are linked to the actions, resources and timelines needed to achieve them.

Use the guidelines below to develop at least two goals that you would like to work on over the next year. Goals may be short-term or long-term. Document these goals using the [Goal Setting Template](#) or an alternative format of your choice (i.e., paragraphs, audio, visual, etc.). Be prepared to discuss these goals with your Chair during your annual conversation.
