The Teaching & Learning Centre supports faculty members and instructors in enhancing the academic experience at Seneca. We provide a range of services, including workshops, courses, online modules, resource links, and personalized consultations. Our expertise spans course and assessment design, lesson planning, active learning strategies, student engagement, and integrating technology tools into education.

We're excited to announce that we've moved to a new location at Newnham Campus! Visit us in the CITE Building in **room K2037** (inside K2030) to meet the team, ask questions, and share teaching resources.

While our new space is based at Newnham Campus, the Teaching & Learning Centre is here to support faculty and instructors across all campuses. Whether you drop in, email us, or schedule a virtual consultation, we're committed to helping you enhance your teaching practices no matter where you're located.

In addition to in-person and virtual support, we've collected, created, and curated a variety of teaching and learning resources on our website. Explore these resources anytime at [senecapolytechnic.ca/teaching](https://senecapolytechnic.ca/teaching).

We're available for drop-in support Monday to Friday, 9 a.m. to 5 p.m. Eastern. To book a face-to-face or virtual appointment, email us at [teaching@senecapolytechnic.ca](mailto:teaching@senecapolytechnic.ca).

Stay connected with us! Follow us on [X](#) and [Bluesky](#) for updates, resources, and event announcements.
