

Jan 15 Classes moves Online!

Published 17 days ago by [David Trinh](#)

Due to the severe weather conditions, we will be moving all classes online wherever possible. Unfortunately, labs that cannot be transitioned to an online format will need to be cancelled. Please ensure to communicate these changes to your students, informing them about the shift in delivery mode or lab cancellation as applicable.

A decision about evening classes will be made by 2 p.m. today.

Thank you for your cooperation and understanding.
