

# Adobe Creative Cloud at Seneca

Published 11/11/2020 by [Ashley Ribbel](#)

Seneca has an Enterprise license agreement for the use of the Adobe Creative Cloud (CC) suite of products. The creative cloud suite comprises of popular software tools like Photoshop, InDesign, Dreamweaver, Creative Cloud Express, After Effects, Illustrator, Audition, Character Animator, Clip, Stock, Illustrator Draw, XD, Lightroom, and more. This aligns with the goals of our Digital Learning Strategy (DLS), including ensuring faculty and students have full access to the software tools and technologies required to support their teaching and learning.

For more information, see ITS's information. (You must be signed into MySeneca to see the link to ITS's Adobe Creative Cloud information.)

Seneca is the first Canadian institution designated as an Adobe Creative Campus. [Learn more about the Adobe Creative Campus Program.](#)

The Teaching & Learning Centre has curated some how-to guides and examples of using Adobe Creative Cloud in teaching and learning.

Check [the Teaching & Learning Centre calendar](#) to see if we have any upcoming workshops for instructors. Recordings from past workshops are available on our [Workshop Recordings](#) page.

Students can attend [workshops through the Seneca Sandbox](#).
