

Rubric Resources

Published 12/7/2020 by [Ashley Ribbel](#)

A rubric is a document which communicates performance expectations. It contains criteria which will be assessed, and levels of performance quality (often with mark ranges). When distributed to students with an assignment, the rubric ensures students are clear on the expectations for the assignment. It would also be used by the instructor to provide feedback (marks and comments) on completed student work.

Rubrics in Learn@Seneca

The [Creating a Rubric](#) and [Attaching a Rubric to an Assessment](#) articles on the Blackboard Ultra website show how you can start using rubrics in Learn@Seneca.

See the [Managing Rubrics](#) article for information on how to delete, duplicate, editing, or import a rubric.

Rubric Tutorial
