The Privacy Office is excited to announce a new faculty-specific version of the **Privacy is Everybody's Business** training program. This 10-minute online module will provide practical information to assist faculty, and other academic staff, in meeting obligations for handling and protected personal information in compliance with Ontario's **Freedom of Information and Protection of Privacy Act** (FIPPA) and **Seneca's privacy policies**. You can access the online module now in **MyPD**.

The new module is being incorporated into the faculty onboarding training and is intended to complement Seneca's other privacy awareness initiatives such as in-person presentations, the Data Privacy Awareness campaign, and the website. All current faculty and academic staff will also be invited to complete the training module in the fall.
