Reminder: Educational Technology Tool Finder

Published 9/22/2020 by Ashley Ribbel

in the September 2020 issue

The Educational Technology Tool Finder will help you find popular tools used by Seneca faculty and students for increasing engagement and collaboration in their teaching and learning, and strengthening digital literacies. The tools are categorized by purpose: tools to assess, create, collaborate, and engage, as well as course management tools and file storage tools. For each tool, you'll find brief descriptions and examples in practice.

New: Seneca's Privacy Office is adding privacy information to the tools, where applicable.
