Collaboration Tools

The range of teaching and learning technologies available to you as Seneca faculty is vast and the possibilities can seem endless. Please click [here](#) for more information on technologies available to you as faculty.

Seneca's Educational Technology Advisory Committee has developed an [Educational Technology Tool Finder](#). This tool finder will guide you through popular tools used by Seneca faculty and students for increasing engagement and collaboration in their teaching and learning and strengthening digital literacies. For each available tool, you will find brief descriptions, examples in practice, and login information if applicable.
