

Self-paced Online Modules

Published 6/17/2019 by [Ashley Ribbel](#)

in the [June 2019 issue](#)

The Teaching & Learning Centre is offering three online modules to support faculty:

- [Learn@Seneca Essentials](#) – use this module to help you set up your Learn@Seneca course(s) to meet the minimum requirements. You'll also learn the value of using Learn@Seneca as a way of supporting student learning.
- [Learn@Seneca Grade Centre](#) – use this module to help you set up your Grade Centre to display all individual assessments and corresponding grades to students in your course and calculate their final grades.
- [Academic Integrity Training for Faculty](#) – use this module to help you understand Seneca's Academic Integrity policy and how to apply it, explore academic integrity issues, and become familiar with the resources available to assist you and your students with upholding the Academic Integrity policy.

Everyone is welcome to use the links above and work their way through the modules.

Coming soon: we are currently developing a Classroom Essentials online module – participants can use this module to learn about the foundational requirements for getting started in teaching in the classroom at Seneca.
