### Academic Continuity

On the site, you will find the [Request for Support form](#), basic information for developing an [Action Plan](#) (including a planning template), [Frequently Asked Questions](#), and [Support and Training](#) links and videos.

- How will this affect my course(s)?
- What do I need to do?
- What do I communicate to students?

Common questions about teaching, activities, assessments, and accommodations.

Step-by-step tutorials, webinars and additional support.

The site also contains a variety of teaching resources including [Communication with Students](#), delivery of [Learning Activities](#), and online [Assessments](#).

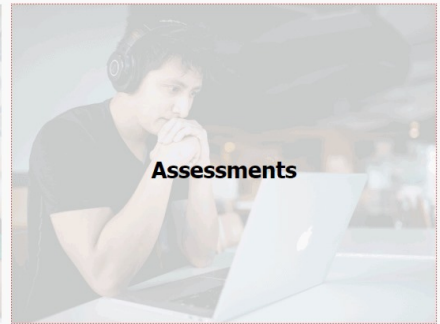

## Teaching Resources

Tips for maintaining communication with your students

Suggested alternatives to in-class learning activities

Ideas for alternative assessment methods

Remember: the Teaching & Learning Centre Team is here to support you as you transition content online. We're co-hosting webinars every Friday with ITS to offer tips and best practices, plus answer your questions. The webinar dates and topics, including resources from the past webinars, is available on the [Friday Webinar Series from March and April 2020](#) page of the website.

To request support, please complete the [Request for Support form](#) found on the website.

View the [March 2020 issue of the Academic Newsletter](#).
