Time management can be one of the toughest areas of a new college student's life to tackle. Newfound freedoms can mean the first four weeks of class disappear in a blur and then the next thing they know midterm assessments are upon them! Introduce your students to [Seneca's Assignment Calculator](#) when you introduce academic tasks.

The assignment calculator breaks large tasks into manageable steps complete with links to supportive resources. Consider adding a link to it on your My.Seneca course site.

The screenshot shows the Seneca Assignment Calculator interface. It has a red header with the Seneca logo and the title "Assignment Calculator". Below the header, there is a brief description of the tool's purpose. The main form includes two date pickers: "Date you will begin the assignment:" set to 2019-06-25 and "Date the assignment is due:" set to 2019-07-02. A dropdown menu for "Type of assignment:" is open, showing a list of assignment types: Annotated Bibliography, Business Report, Essay, Infographic, Lab Report, Literature Review, Photography Assignment, Presentations, Reflection Paper, Research Essay, and Video Project. At the bottom of the form is a button labeled "Calculate Assignment Schedule". The Seneca Libraries and Learning Centres logo is visible in the bottom right corner.
